Mixing / MixMatic M930S

Semi-Automatic compulsory mixer for coating mixtures, filler and glue.

The MixMatic M930S guarantees smooth operation for a homogeneous mix.

The pivoting mixing-head propels the material buckets in the opposite the direction of the mixing tools, which ensures a reliable mix.

The 3 mixing stations allow enough options to pre-mix material, to create a continuous workflow at the mixing station.

The mixing time is adjustable. The duallywheels ensure a easy transport and the support legs ensure a safe stand.

Mixing / MixMatic M930S

Details
