

MixMatic M6008

Fully automatic continuous mixer for binder and rubber granules;
prepared for connection of the material component (gravel unit)

Our most powerful mixing machine for 1-component binder and rubber granulate is equipped with a material container with 2.500 l capacity. The container can be loaded with rubber granulate either with a Big Bag or a shovel loader. For all pumps and electric motors for the dosing of the components, mixing ratios can be precisely adjusted and consumption levels can be evaluated on the regular basis.

The machine is operated by a full-graphic touch-screen control unit. Afterwards the mixer is switched on and o manually by means of the manual control panel. The maximum mixing capacity of the MixMatic M6008 is 400 kg/min. The levels of the components are monitored by sensors and signals. An additional large material container with a capacity of 1.600 l is used for mixing of materials for elastic base layers, such as 1-component binder, rubber granulate and gravel.

MixMatic M6008 without gravel unit

Junction for gravel unit

Suction pump and by-pass hose

Technical information:

Drive augers / Pumps / Mixer:	Electric motors infinitely adjustable by means of a frequency converter
Power:	23.8 kW (32 HP) / 400 V / 50 - 60 Hz
Performance:	400 kg/min
Weight:	Basic mixer: 1.600 kg Gravel unit: 600 kg
Dimensions:	Basic mixer: L 2.350 x W 1.360 x H 1.890 mm Gravel unit: L 2.350 x W 900 x H 1.890 mm
